

# ASSIGNMENT 4

Implement a teaching strategy of your choice to overcome one of the issues you identified in relation to your teaching and your students learning. Reflect on the strategy you implemented, what went well and is there anything you would do differently if you were to use this strategy again. (Reflection <1000 words)

	Use these questions to guide your reflection (Guide <1000 words; 100 - 150 words per section)
Identify problem	Describe the issue you wanted to overcome.
Research	Identify a teaching strategy that has been used previously/could be used to overcome this issue – briefly research best practice in this area
Make and implement a plan	Devise an implementation plan, describe what you will do in the class and describe what the students will do in the class. You can use the lesson plan above as a guide.
Reflect on plan & implementation	<p><b>Describe:</b> Describe the teaching strategy you choose to implement to overcome the issue. Describe the learning environment and describe what you and your students actually did.</p> <p><b>Feel:</b> What were you thinking and feeling after the class?</p> <p><b>Evaluate:</b> What went well in the session? Was there anything you would like to alter, add to or eliminate? How did it impact on you? How do you feel it impacted on the students learning?</p> <p><b>Analyse:</b> What did you learn from implementing this teaching strategy? What challenged you? Did you talk to others who used this strategy previously, how did their experience compare to yours? (if you did not discuss with others, consider and document what you believe the benefits of such a discussion would be)</p> <p><b>Conclude:</b> What did you learn about yourself? What did you learn about your students? What did you learn about teaching and learning? What else could you have done?</p> <p><b>Action Plan:</b> What would you do differently the next time? What will you do to overcome any problems/issues you identified?</p>
Evaluate plan	What went well in the session? Was there anything you would like to alter, add to or eliminate? How did it impact on you? How do you feel it impacted on the students learning?
Conclude/re-plan	What would you do differently the next time? What will you do to overcome any problems/issues you identified?

## Lesson plan guide:

Time/ Sequence of events	Lecture Learning Outcome Targeted*	Methodology/ Activity (What will I do?)	Purpose/Aim of the activity (Why will I do it?)	What students will do	Grouping (whole class, small groups, etc.)

\*Note Lecture learning outcomes should be aligned with module learning outcomes which in turn should be aligned with programme learning outcomes
